Serracor-NK

September 2009

Dear Esteemed Health Practitioner:

Vic Rathi, president of Specialty Enzymes and Biochemicals, is one of today's foremost enzymologists. Mr. Rathi has over 35 years of experience in research, technical innovation and development of hundreds of efficacious formulas for the nutraceutical industry. In 2004, Mr. Rathi developed a complete, proprietary systemic enzyme formula that later was sold under the trade name Neprinol®.

An important part of Neprinol®'s systemic enzyme blend was SEBkinase™, a powerful proprietary enzyme blend exclusively manufactured by Specialty Enzymes and Biochemicals Company. SEBkinase combines two enterically coated, fibrinolytic proteases, Peptizyme SP® (Serrapeptase) and NattoSEB™ (Nattokinase). To enhance absorption, increase enzyme stability and bioavailability, the entire systemic enzyme blend is combined with our *BPPS™ Delivery Technology*. Mr. Rathi's complete formula combines SEBkinase (nattokinase and serrapeptase) with other proteolytic enzymes, lipase, bioflavonoids and CoQ10.

The original formula, which includes SEBkinase, is now available to Health Care Practitioners from AST. Introducing...

Serracor-NK™ with SEBkinase is a powerful systemic enzyme blend formulated to support a healthy cardiovascular system, maintain normal fibrin metabolism and lower C-Reactive Protein levels in blood.* **Serracor-NK** is manufactured under strict cGMP and ISO 2001:2000 standards. The ingredients in **Serracor-NK** are all natural and derived from non-GMO sources. Further, they are tested in-house for quality, activity and safety.

Enclosed is information substantiating the effectiveness of **Serracor-NK** with SEBkinase. We are committed to the health of your patients and the success of your practice. We look forward to assisting you in your efforts to promote better health!

For Your Health,

Luis Giraldy,
AST Sales Manager

All Natural • Pharmaceutical Grade • Quality • Non-GMO • cGMP & ISO 9001:2000 Certified Facilities

Peptizyme SP is a registered trademark of Specialty Enzymes & Biochemicals Co. SEBkinase, NattoSEB, Serracor-NK and BPPS are Trademarks of Specialty Enzymes & Biochemicals Co.

Neprinol® is a registered trademark of Arthur Andrews Medical Inc., which is not affiliated with, nor sponsors or endorses this product or any other product from Specialty Enzymes & Biochemicals Co.
